

Do We Really Remember?

Do we really remember the sacrifices they made

Do we really think about what those soldiers did

Do we really think about what they went through while we complain
about no wifi

No

We don't

Why

I'm not sure

These soldiers didn't ask for us to think about them daily

They did this so we could have a free country

Not so that we could have a huge celebration for them all the time

But because they wanted a better place for us

We have to remember that fighting is hard

Not just physically but also

Emotionally

Mentaly

The pain

The stress

So the question still stands

Do we really remember

Well that my friend

Is up to

You
