

A world without hate.

Hi, my name is Keira. My favourite thing is my family. Families are happy and full of love and joy. My least favourite thing is war. All of the soldiers were fighting for years and putting their lives in danger for our freedom. I really hope we don't have another world war because if we had another one I would not only be scared so much that I couldn't sleep, but my heart would be broken because of the feeling that we would have to have a war just to live in a nice place.

My uncle Jimmy is in the Air Force and he would be forced to fight and leave his family. He would be in danger every day of dying, and if I lost my uncle I would be so sad. Lots of other families would lose their loved ones as well, and that would be horrible. We should all be able to get along and work out our differences without having to go to war. We always have to remember how bad it was years ago for the people and soldiers who went through the wars. They did so much so that we would have freedom today.

That is why we all get together on the 11th month of the 11th day and on the 11th hour of November to honour and respect the soldiers that died for us. That is why I don't want to have another war and let more soldiers risk their lives like they did before. If you don't want that to happen again, say NO to war. Instead say YES to a war free world where everyone can live in peace. A world where there is no hate.
